

## 2 TEAM BUILDING

### Bike rental 'Ride like a Pro'

Do you want to clear your mind? The only thing you need to bring with you is a pair of good legs! We will take care of the rest: a bike, a helmet, GPS with several routes, changing room, shower and a drink. Accessories, such as a helmet, pedals and cycling shoes can be ordered optionally.

### Guided cycling tour

A bike guide can show your team how team work makes the dream work by organizing a range of activities with and without the bike. Are you the super-domestique who leads out the leader to the finish or do you prefer the role of team captain who manages the situation in the right direction?

Prices are available at request.
